BEST ON MARKET - SMILINS' MOOE

Made in USA was my primary reason for buying this coupler. I have used them in the past years, but never really paid much attention to where it was made (foolish). Excellent quality, leak free. The best!

HIGH QUALITY PRODUCT

You can buy cheaper couplers, but not better. These are very well built and work flawlessly. I expect them to last a very long time. I use these on all the air hoses for my construction tools. Perfect.

QUALITY COUPLER - MILTON 715

Replaced a few of my coupler's with these after I got sick of listening to air leaking. Works very well and even with the no name plugs it works very well.
